

Dear Patients,

It won't be long before we can open safely.

Following our email on Friday 29<sup>th</sup> May, we greatly appreciate that you would like to return for your dental treatment.

**We would kindly request you have further patience with us regards to re-opening, so that we can ensure safety for both patients and staff, and we will inform you when we are ready to open.**

Throughout the pandemic our priority has been the safety of our patients and staff and this continues to be the case.

**As a result of this we will be re-opening once we are satisfied that we have all the necessary processes and personal protective equipment in place to ensure safety for patients and staff.**

**As you are all aware with regards with the shortages of PPE that have been experienced globally, we have put orders for this and are still awaiting some of the supplies.**

We strongly advise that you **refer to our email sent out on Friday 29<sup>th</sup> May** outlining the measures that we have already placed for safe return and information provided on your journey through the practice when we do re-open.

Our first appointments might be priority treatments.

We might not be able to provide all care from the start.

**We will send further emails and keep you informed when we are operational in a safe environment.**

Thank you once again for all your patience and please do not hesitate to call us for advice.

Kind regards,

Old Windsor Dental Practice.
